ANCHO MINE HAS GOOD PROGRESS STATES BETTLES

Preparation for a winter of operation at the Ancho Mine in the Graniteville region is showing good progress according to Gordon M. Bettles, manager of the Yellow Tiger Company. After a late start, all phases of the work have of necessity been rushed but despite this fact, it is felt that a good showing has been made. Recoditioning of the mine workings is showing excellent progress and the mine is now in readiness for operation if an ample and steady supply of water can be procured from the Bloomfield Ditch. So far water service has been too erratic to depend upon, but insofar as the parties at interest in the matter of the ditch are co-operating to make the service steady and regular it is probable that steady working of the mine will become possible shortly.

Meantime the mill has been quite thoroughly reconditioned and certain additions to the metallurgy are nearly complete. Operation of the mill will be possible before the mine is prepared to supply an adequate tonnage of ore.

Repairing of camp buildings and additions to same, together with the laying in of mine timbers and other supplies to carry over a period of perhaps six months of winter weather will have been completed sometime early in November and the Yellow Tiger Company will be intrenched for a winter of active development which it feels will result in a favorable outcome for the Ancho Mine. Some twenty men are at present being employed.

GOUDGE APPOINTED AS SUPERVISOR BY YOUNG

Henry Goudge was, the past week, named by Governor C. C. Young to the vacancy on the board of supervisors caused by the death of D. S. Rowe. Whitmore, private secretary to the governor, canvassed the situation at first hand Tuesday and the appointment was made Wednesday.

Mr. Goudge was strongly recommended by a number of the leading citizens of his district. He is a miner by profession and prominent fraternally. The Nugget extends its congratulations.

There are some people in this world who are always thinking of doing some kindly act for some one. We have in mind in saying this, Frank Davies who before the close of the deer season presented the publisher's family with a fine piece of venison that was duly enjoyed. Lots of hunters and fishermen as well love to trot into an editorial sanctum with some wonderful tale of their prowess but they never think to bring along any eatable evidence. Fran kdon't belong in that class.

Mis Gertrude Goyne, chairman of the Garden Section of the Women's Civic Improvement Club held a meeting Friday afternoon that was well attended. Discussion was had with regard to the planting of bulbs.

TURPENTINE HAS BOOST GIVEN IT CITY TRUSTEES

By their assurances given at the monthly meeting on Thursday evening, the city trustees will lend every assistance to get the turpentine plant installed at an early date. The only thing asked of the board by F. C. Ernst was that the city take steps to clear title to a tract of land in the southern part of the city where a street was apparently laid out many years ago but never opened up. No one seems to have any knowledge that the street was ever deeded to the city but the matter is being investigated by city attorney Nilon so that there will be no unnecessary delay in clearing the title.

Mr. Ernst appeared before the board and stated that all that was holding up the purchase of the tract was the matter of the street which cuts the tract in two and would be a serious handicap to operation of the plant.

Judge Dow Gives Views on New Traffic Ordinance

City Judge H. B. Dow appeared before the board and gave his views on some provisions of the recently enacted traffic ordinance, particularly with regard to all night parking. He stated that he had not been fining so far any offenders brought in on that charge as ht thought that more serious infractions ought to be looked after, such as cutting corners, reckles driving, not observing the stop signs, and speed burning. He recommended that regular traffic officers be appointed.

Street Repairs Get Some Pertinent Comment

The trustees made it plain that Contratcor J. A. Casson is not going to get the balance of his money on the street repairs until the trustees are satisfied that he did a thorough job. The time is elapsing for the payment of the final amount due.

Final Chapter Is Writ In McKean Proceedings

By formal action taken, the final chapter was written in the proceedings brought by Wm. McKean against the city for conversion of his rock crushing equipment at the Pittsburg dump when the trustees ordered a warrant drawn in the amount of $3500 to satisfy the judgment as rendered by Judge Pullen.

Counghlin and Hallett Are The New Speed Cops

The board ordered chief of police Shearer to swear in Herbert Hallet and Miles D. Coughlin as special police detailed to the traffic squad. Both have been studying up the document known as the traffic ordinance and are ready to issue citations against all and sundry violators thereof, so watch your accelerator.

Treasury Receipts Bulk Up Well With Tax Money

SEAWELL MAKES MANY FRIENDS IN HIS CAMPAIGN

Word from over Placer and Nevada counties is to the effect that the campaign being waged by Jerrold L. Seawell for the assembly post is making wonderful headway in every section of the district. His name appears on the ballot in the same column as that of the incumbent so that it will not be hard to find.

The mining industry has been very receptive to Mr. Seawell's campaign as it is felt that with the awakened interest in mining in this county it is extremely important that this distrct be represented by those who are willing to back up our interests in an effective way. The woeful lack of interest taken in the last assembly fight in behalf of the Cloudman mining bill by our assemblyman has been widely commented on and shows only too clearly that mining needs stronger representation at Sacramento is than it has been getting if we are to get fully under way again. Mr. Seawell has pledged his unqualified support to the interests of gold mining and knowing his past record in making good on his promises, The Nugget has no hesitatncy in recommending to its readers that they cast their unanimous ballot for him.

His practical work in behalf of education in acting as a school trustee shows that he is alive to the educational needs of the coming generation and that he can be depended on to foster education. Being brought up on a farm and having been a railroad man, he very nearly covers in his experience everything pertaining to the needs of the industries of the 9th district.

The people of Nevada county will make no mistake in marking their ballot for Mr. Seawell if they want to send someone to Sacramento who will fight for our mining interests.

In 5 MILLION HOMES TONIGHT

A host of babies will enjoy sound sleep tonight. And their parents will have unbroken rest. Castoria is the cause of this contentment in a multitude of homes.

Good old Castoria! Children cry for it. Mothers swear by it. Not a household where there is an infant should ever be without it. A few drops of Castoria quiet Baby in a perfectly innocent manner. It is natural slumber that follows. Castoria is a purely vegetable product. No opiates. No narcotics. Of any kind.

Now you know why trained nurses give Castoria as often as an infant is ailing, or even restless. And why doctors tell mothers it is the first and only home remedy when Baby has constipation, colic, diarrhea, or other upset. It is made for babies, and safe to give babies, and other things are not.

Fletcher's Castoria is "old-fashioned" if you count its fifty years, but it's an old-fashioned mother, nowadays, who worries along without it. Twenty-five million bottles bought last year! That's of the number of mothers who rely on Castoria! All these mothers can't be wrong! To keep a bottle in the house is a precaution you owe your little one.

NURSES know, and doctors have declared there's *nothing* quite like Bayer Aspirin for all sorts of aches and pains, but be sure it *is* genuine Bayer; that name must be on the package, and on every tablet. Bayer is genuine, and the word genuine—in red—is on every box. You can't go wrong if you will just look at the box:

Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylicacid

FRENCH CORRAL ITEMS

FRENCH CORRAL, Oct.20, (Special to The Nugget)—Well, the past week has seemed a quiet on eafter the close of deer season. Hunters thronged our hills last Sunday, but we have not heard of much luck in that line altho the game seemed plentiful.

Many are wishing for rain and on all sides the need of it is apparent. The condition in our vicinity is certainly dry, our supply of water from Pine Grove having been exhausted about three weeks ago. This was not on account of the scarcity of water, but owing to the bad condition of the gate, which could not be lowered, and the water means more expense for our people who are already heavily taxed, but we must provide for next year. We are all optomists, however, and shall keep stout hearts and trust that the public will help as liberally as they have in the past, when we provide entertainment for their patronage.

C. F. Hoffman and son, Milton, were Sunday visitors.

J. Swazey, who has been in the employ of K. Phelan of Tyler, was a visitor last week.

Mrs. E. De Prati has gone to Sacramento for a visit with friends and also to be in attendance at the convention meetings of the O. E. S.

Miss Louise Moulton returned to North Bloomfield, where she is teaching school, Monday a. m., after spending the week's end with her parents in French Corral. Miss Moulton reports that she has a most interesting little school and is pleased with both parents and pupils.

We hear that work in the new mining venture on the South Yuba near Bridgeport is making good progress.

Mrs. M. Pomeroy passed away at the home of her mother, Mrs. J. Ferguson of Sebastopol, Wednesday night. Owing to the phone line being out of commission we have not learned particulars. Mrs. Pomeroy (nee Maude Ferguson) was one of our Ridge grils, and a most beautiful and accomplished young woman, and a general favorite with all. Soon after her marriage to Mr. Pomeroy a prominent attorney of Butte, Montana, she was stricken with rheumatism, which left her in a perfectly helpless condition, and from this she has been a patient sufferer sufferer for many years. While death to her was a happy release, the hearts of her friend sare sad that she should have been so afflicted. She was most dearly beloved by all and even in her helplessness, she performed a sweet mission for she taught many of us to bear with patience the ills andtroubles of life.

A. Browning made a trip to Marysville Thursday.

W. E. Moulton and Stanley Byce had business in Nevada City Thursday evening.

Mr. Hooper, assistant to A. Holmes, made a trip to French Corral with the ambulance to convey G. L. Sweetland to the hospital. Mr. Sweetland has been ill for several days and was taken to Nevada City for medical treatment.

Mrs. A. Browning and son, Harry, were visitors in Nevada City Thursday night.

Stockmen are moving their cattle from the mountains many droves have passed through here during the past week. They report this an unusually dry season.

Fred Hooper is home from the eastern end of the county where he spent the summer in the employ of the Forest Service.

Fred W. Smith of Alleghany spent a short time here last week visiting with his family.

Mr. and Mrs. Clay Epperson have returned to their home at Taft after a visit here with her parents, Mr. and Mrs. Charles Guenther.

On Thursday a birthday cake adorned the festive board in honor of the birthdays of Mesdames J. Davis andI. Musfield and Mr. Frank Harris. The delictable cake was the handiwork of Miss Annie Wieman and was daintily decorated with geranium blossoms. The work of painting the church is not completed and another date will have to be set to finish the work. It makes a great improvement in our little town to have the little church on the hill painted.

Emery was arrested for cattle rustling and was bound over to the superior court for trial of which the date has not been set. Mrs. Huckins, who accompanied her husband, went on a shopping tour.

THERE ARE STILL SOME PEOPLE WHO DO NOT SAVE

People who haven't put something away for use later on are in the minority now, because the majority of people recognize the necessity for having money for an emergency, for an opportunity, or for their later years.

Even those who do not save realize that it is the proper thing to do, because they provide for the future by laying in their supply of winter wood. If it pays to prepare for winter heat, then it is equally wise to provide for your comforts in ither ways. This can best be done by starting a savings account that will be available for any use you may desire to make of it. Nobody wants to be considered improvident, yet there are still many people, young and old, who have not acquired the habit of saving a part of their income.

You may have a bank account in your own name. You may have an account which your wife or anyone whom you may designate, may share with you. You may even provide who may drawt he moneya fter you have no further use for money. It can be arranged to suit your pleasure.

EDITORIAL

Proposition Number 2 is coming before the electors on November 6. It deals with the financing of the Olympic Games in California in 1932.

The Olympic games will constitute a great attraction in the state of California. The country, state and city where these games are to be held attend to the financing and actual staging of the games as to physical aspects such as the form of structures, equipment, facilities, organizations etc.

The games are operated over a period of approximately eight months of the year designated. The events, for men and women, are, generally speaking, as follows: winter sports, gymnastics, fencing, wrestling, boxing, rowing, swimming, water polo, equestrian sports, modern pentathlon, association football, field hockey, cycling, weight lifting, yachting, track and field, art competition, and exhibition ofn ational and foreign sports.

The publicity, alone, given to this event possesses value for the entire state. The games will serve as a medium for attracting to the state, hundreds of thousands of visitors. Already national conventions are being scheduled for 1932 in California.

California now faces the necessity of declaring herself for this opportunity. The cost is estimated at two and a half or three million dollars in addition to cost of facilities which have already been provided and paid for and will not be a burden to the fund.

Read No. 2 and vote for the good of California.

Vote YES for No. 6 on the SIXTH

Keep the schools out of politics and politics out of the schools. Number 6 deals with the reorganization of the state department of education.

Education is the biggest task confronting the state of California biggest in the number of people involved, biggest in point of money expended, and biggest in civic importance.

The state Department of Education is at present a "double-headed" organization. A state board of education is appointed by the Governor and a state superintendent is elected by the people. Powers and rights of these two conflict in several places. For two years California watched an expensive deadlock between the superintendent and the board. The superintendent nominated presidents of the state teacher's colleges at San Jose and San Francisco and the board refused to elect them, which left these institutions without official leadership.

Number 6 provides that a board of ten members be appointed by the Governor with the approval of two thirds of the senate, for a term of ten years each, one elected each year.

This board will select, employ, and control the director of education, who will supercede and take the who will supercede and take the place of the present elected state superintendent of public instruction.

The new director will be selected by the Board of Education because of his standing as an expert in educational affairs and not because of his ability as a "vote-getter".

This same type of organization, with a lay board and an educator, as superintendent, prevails in most of our city schools.

USE YOUR VOTE.

PLAN GAMES

Representatives of Nevada City high school and Grass Valley high school met Tuesday evening, October 16, at the Grass Valley Community House for the purpose of fostering inter-city games and reorganizing the "Grass Valley Community Basketball League".

For these games, the following teams were selected: Grass Valley high school, Nevada City high school, The De Molay team, The Boston Colts, The Cherin Brothers' Employees team, and The Golds.

It was decided that games would be played every Tuesday and Friday in the Grass Valley high school gymnasium. Grass Valley and Nevada City are scheduled to meet soon. This will be good practice for our teams.

COUNTY INSTITUTE

The Nevada County Teachers' Institute will open at nine-thirty o'clock Tuesday, October 2, at the Grass Valley high school and will continue until Friday. The Grass Valley high school orchestra will open the program Tuesday.

The speakers are as follows: Dr. John C. Almack, Stanford University; Dr. A. F. Blanks, University of California; Professor Nicholas Ricciardi, chief of secondary schools; Mr. Roy Cloud, Secretary of the California Teachers' Association; Mr. Sam H. Cohn, Deputy Superintendent Public Instructor; Mrs. Ethel Saxon Ward, President of the Supervisors, Northern California; Miss Mary Davis, State Board of Health; Mrs. Lilly M. Whitaker, Primary Instructor Western Normal; Miss Arta Oldham Bradt, Supervisor of Placer county; Mr. U. G. Carr, State Research Committee; Mr. Richie Smith, Ginn and Company. Several of the local teachers will also speak.

The elementary session will be instructed in primary reading, history, geography, spelling, penmanship, and music. The high school teachers will have special meetings to discuss the following: English, mathematics, "Good, Bad, and Indifferent Examinations, music appreciation, and "Standards of Measuring the Efficiency of High School Programs."

The general assembly will discuss legislative school measures, and will be entertained with a first aid demonstration, and many other interesting features.

We of the schools wish the teachers luck!

HOLD ASSEMBLY PROGRAM

The first assembly program was given Friday morning, October 19. Nancy Jones gave a reading entitled "Pigs is Pigs." Mr. Kjorlie led the assembly in Community Singing. The program was enjoyed by the students, and we hope to have more in the future.

FRESHMAN—What's the warning bell for?

SENIOR—To give the janitor a chance to escape the thundering herd.

DECLINES INVITATION

The Nevada City Scholarship Society has received an invitation from the Grass Valley Scholarship Society to attend a Hallowe'en party to be given Saturday evening, November 3, at the Grass Valley Club House.

Because the first basket ball game is scheduled for November 3, it makes it impossible for us to accept his invitation. We appreciate the kindness of the Grass Valley society.

We hope to be able to entertain the Grass Valley Scholarship Society soon.

Mr. Pederson: "Why was cactus nvented?"

Bill: "Gee that's a sticker."

NATURE EXHIBIT

The general science class, with the help of their teacher, Mr. Pedersen, is preparing a nature exhibit. This exhibit will include both animals and plants. The members of the class have collected a number of reptiles, insects, and amphibia. Any donations to this exhibit will be greatly appreciated by Mr. Pedersen and the pupils.

BASKETBALL SCHEDULES

The games to be played during our coming basketball season are with the following: Placerville, Ione, First Christian church of Sacramento, Auburn, Sacramento Part Time Schools and Gridley. The game which provides the most interest, as usual, will be the game between the Nevada City and Grass Valley high schools.

MEETING IN SACRAMENTO

A meeting of the Central California High School Athletic League was held last week in Sacramento. Mr. Pedersen was the representative from the Nevada City high school. Among those present were twenty principals and other interested representatives from towns within the league boundaries.

Talks were given by Mr. Underwood of Grass Valley. Mr. Sweetman of Ione, and Mr. Pedersen on their desire to re-enter the "Sierra Foothill League", or to be placed in another desirable league.

Mr. Pedersen feels that both Nevada City and Grass Valley will be treated fairly by the league on the question of their entering some district league.

Mr. Kjorlie is developing a splendid high soprano voice while trying to show the girls how to sing.

We have among our high school girl four amateur song writers and scientists. They have composed the following words for the tune with which all of us are familiar:

He likes general science
I never cared for general science
But she likes general science
And that's my weakness now.

Signed: Vivian Cerro, Bernice Coughlan, Ruth Gleason, Elizabeth Thomas.

NEW STAFF ANNOUNCED

The following students have been chosen by Miss Hoffman to be on the next Nevada City high school newspaper staff: Elbridge Skeahan, editor; Marie Young, senior reporter; Beatrice Cassidy, junior reporter; Deynes Foley, sophomore reporter; Francis Bernard, freshman reporter. Pierson Tuttle and George Noyes, our clever feature writers, will also contribute their part to the paper.

CIVICS CLUBS ORGANIZED

The freshmen civics class of Nevada City high school has organized two clubs that will meet during their class periods every Friday for the purpose of observing the principles of good citizenship and parlimentary law.

The constitutions were drawn up and the officers were elected. We expect in these clubs to increase our knowledge of parlimentary procedure. We also expect to hold social functions.

TEASERS

We hear that Mr. Pederson is personally interested in the welfare of San Jose and we wonder if he has property there or a "bigger interest."

Gentlemen prefer brunettes. Milton Masters has entered the class of gentlemen. How about it, Thelma?

A freshman is as impossible to disguise as a ford.

We wonder why Helen Chapman is always singing, "When you Waltz With the One You Love."

For sale, thirty pounds. Unable to use same as it interfeers with my speed.—Apply Margaret T.

Wanted: A job substituting for teacher's pet in any period. By Merle Greathouse.

Boys will be boys until they are seventeen. Then they want to be sheiks. Byron Janes.

Noble reciting poetry:
After the game is over,
After the shouting is done,
The date that grates on me
It the girl who says: "Which won?"

Mr. Isensee: "Did you read the letter I sent you?"

Myrel: "Yes, sir, I read it inside and outside. On the inside it said, 'You are requested to leave school,' and on the outside it said, 'Return in five days,' so here I am."

Typing I class is turning out so many perfect copies daily that Miss Taylor is overwhelmed by the rapid progress. Believe it or not???

MISS HOFFMAN—It gives me great pleasure to mark a 3—instead of a 4 on your card.

ELBRIDGE—Make it 2 and enjoy yourself.

OLD FOLKS SAY
DR. CALDWELL
WAS RIGHT

The basis of treating sickness has no changed since Dr. Caldwell left Medica College in 1875, nor since he placed o the market the laxative prescription h had used in his practice.

He treated constipation, biliousness headaches, mental depression, indigestion sour stomach and other indisposition entirely by means of simple vegetable laxatives, herbs and roots. These ar still the basis of Dr. Caldwell's Syrup Pepsin, a combination of senna and other mild herbs, with pepsin.

The simpler the remedy for constipation, the safer for the child and for you And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs?

A bottle will last several months, and all can use it. It is pleasant to the taste, gentle in action, and free from narcotics. Elderly people find it ideal All drug stores have the generous bottles or write "Syrup Pepsin," Dept. BB Monticello, Illinois, for free trial bottle

BITS OF HUMOR

Each flea believes that he lives on the most wonderful dog in the world. That's patriotism.

Some business men are actually glad when things are dull. Take the knife grinder, for instance.

The reason some women never discover any good in their neighbors is because they look for it through a hole in the window curtain.

The closer a man the more distant his friends.

If a man asks for justice and gets it the next thing he wants is sympathy.

According to the Observer a few men are good for goodness sake, but most of them are good because they are married and have to.

It isn't a good idea to despise the little things. A peanut can outride a wave that would sink a battleship.

The auto has been with us for 25 years; and yet a lot of people buy one before they find out they can't afford it.

THE NUGGET INDOOR SPORT COLUMN

RUBBER SPHEROIDS KEEP TOSSERS ON THEIR TOES

A long time ago some wise citizen cut the corner of the plate with a wise one to the effect that "a new broom sweeps clean". The soundness of this old axiom seems borne out in the horseshoe pitching tournament this season in Nevada City by the performances of the Corte Christtoforo Colombo hurling aces. Last week they made a clean 'sweep' of the series with the Odd Fellows' veteran throwers and the week before came within a red hair of cleaning up on their brother Foresters of Court Garfield.

The games this week will be between the Native Sons and Corte Colombo and the Foresters and the Odd Fellows. The Native Sons' bear received quite a ragging last week when Court Garfield took two out of three games from the Natives and Captain Hallett is working overtime this week in thinking up ways and means of conquorng the wild and coming Corte Chris pitchers.

The Odd Fellows on Tuesday evening will attempt to break the jinx which has been hovering over their camp this year casting shadows over the ir efforts. The Court Garfield players will move on the Odd Feilows encampment on Tuesday evening minus the valuable services of their Captain, A. J. Rore, who will be anxiously awaiting the returns from the series while endeavoring to keep his mind on his gas-making job at Hills Flat.

The only way to judge a religion is by the effect it has upon those who believe in it.

Another way to commit suicide is to be like the chicken and pause in the middle of the street to wonder which sidewalk is nearest.

Makes Life Sweeter

Children's stomachs sour, and need an anti-acid. Keep their systems sweet with Phillips Milk of Magnesia!

When tongue or breath tells of acid condition,—correct it with a spoonful of Phillips. Most men and women have been comforted by this universal sweetener—more mothers should invoke its aid for their children. It is a pleasant thing to take, yet neutralizes more acid than the harsher things too often employed for the purpose. No household should be without it.

Phillips is the genuine, prescriptional product physicians endorse for general use; the name is important. "Milk of Magnesia" has been the U. S. registered trade mark of the Charles H. Phillips Chemical Co. and its predecessor Charles H. Phillips since 1875.

WHERE YOUR MONEY GOES

When you invest your money or deposit it, you naturally are somewhat interested as to where it is going to go, to what use it is to be put. You would not be a good investor if you did not look into some of these things.

When you deposit money with the Nevada County Building and Loan Association, and receive interest on the same at the rate of 6 per cent per annum, you are also investing your money toward building up your community. Your money is used to assist in financing the building of new homes in this community, a most worthy object if you please.

It beautifies your town, it makes possible the coming of new residents to this community, it puts new and more business into your stores, it puts many people to work. In addition to earning 6 per cent, your dollars are thus directly helping civic improvement in a definite, tangible manner.

And an extension telephone is a remarkable saver of *steps*.

These added conveniences cost only a few cents a day and are worth golden dollars in comfort and security.
